

CA Support During Looker Backfill Dashboard

Summary of all tickets received after the Looker MVP product was released (8/1/2020). This dashboard includes all requests, while the Looker Backfill section provides a unique look at only those issue types that are normally Team 42 Reporting requests but were fulfilled by Customer Analytics (CA) instead.

Select Range based on Date Submitted:

August 1, 2020 - December 31, 2020

Requests by Department of Requestor

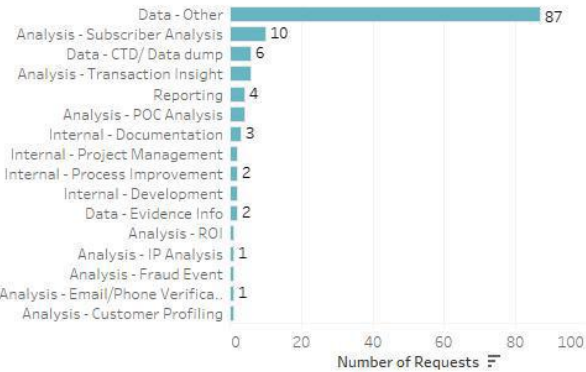

Summary of all tickets received by the department of the primary stakeholder/requestor.

Completed Requests by Type

All requests completed since 8/1/20 by component

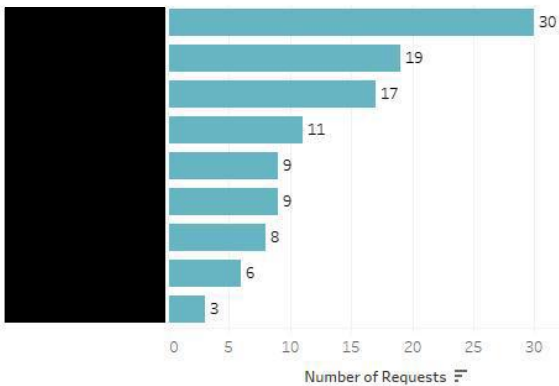

Selection Criteria: Status = Done

Top 10 Requestors

Number of Tickets Created by Username

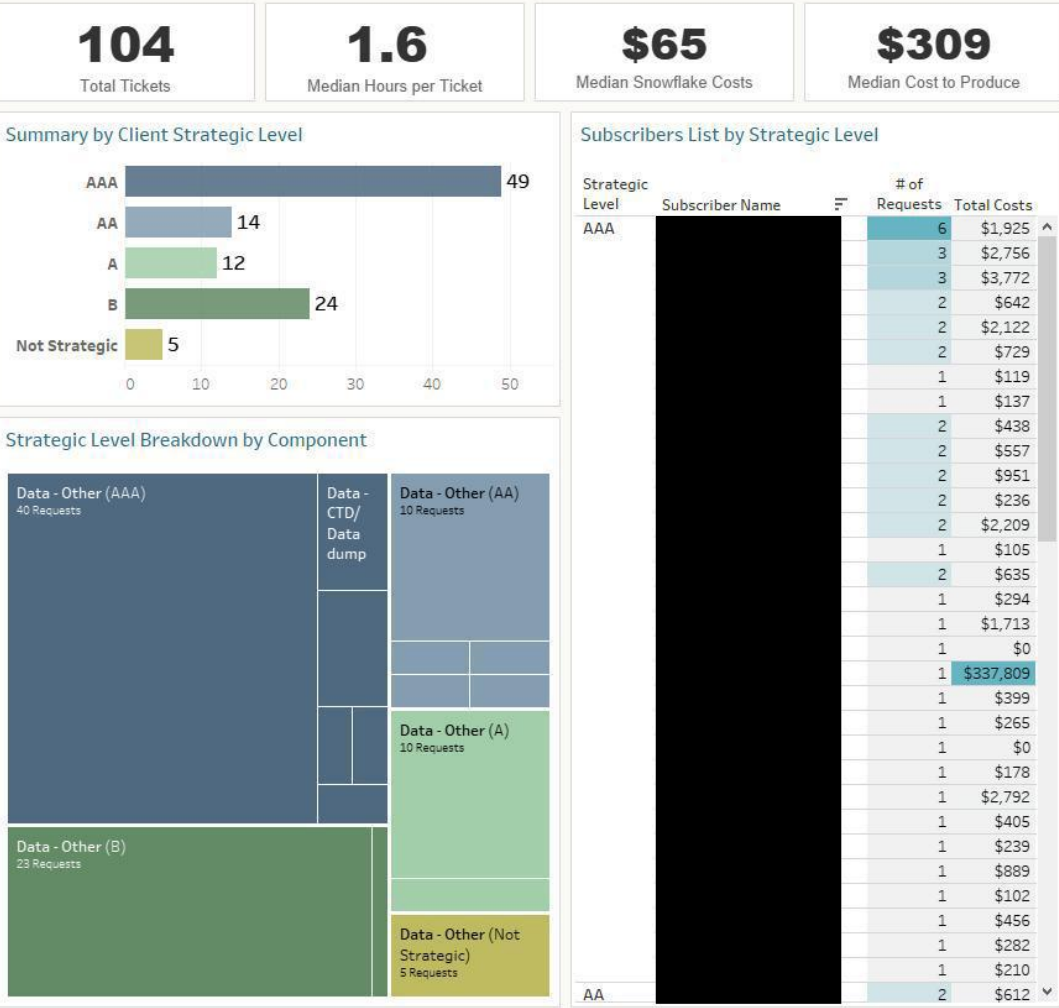

Selection Criteria: Reporter NOT in BI

Custom Data Requests (Looker Backfill Support)

Reporting requests fulfilled by Customer Analytics (CA)

Selection Criteria: Issue Type = Custom Data Request | Component = CTD/Data Dump, Evidence Info, Other (Misc)

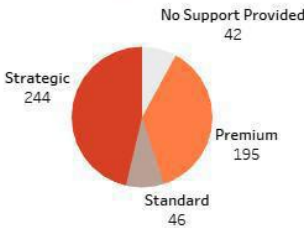

...

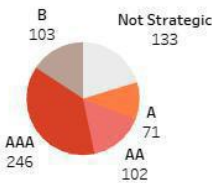

Customer Success Key Performance Indicators

KPI's reported to GFS Customer Success management regarding team performance. Change the metrics reported using the date ticket was submitted.
